

ASQ Screening

The first 5 years of life set the stage for success

in school and for a life time.

Krambrooke Children's Center along with Great Start Collaborative-Macomb are committed to ensuring that all children under the age of 5 years receive routine developmental screenings.

The Ages & Stages Questionnaire-3 (ASQ-3) and the Ages & Stages-Social Emotional (ASQ-SE) are screening tools that ask questions about your child's overall and social emotional development, looking at how children are doing in the important areas of communication, physical ability, social skills and problem-solving skills.

You can access the ASQ screening and complete it using Krambrooke's unique link at: <https://www.asqonline.com/family/4a2830>

These screenings can help identify your child's strengths, as well as, any areas where your child may need support. The screening should take about 5-10 minutes to answer questions about your child. This assessment should be completed within the first 30 days of enrollment for new students and during the month of **November** for current students.

Your individual information is protected to ensure confidentiality. Information is entered on a web based database that is secure and password protected. Identifying information from the screening will be seen only by the developmental screening specialist who scores your screening and provides the results to you.

General information about the ages and results of children's screening scores are compiled at the Macomb Intermediate School District in order to better understand the strengths and challenges of the children living in Macomb County.
